AUTHORITY AND ENFORCEABILITY

For the purpose of this permit, the **permittee** is defined as any person who owns or operates an emission unit at a stationary source for which this permit has been issued. The **department** is defined in Rule 104(d) as the Director of the Michigan Department of Environmental Quality (MDEQ) or his or her designee.

The permittee shall comply with all specific details in the permit terms and conditions and the cited underlying applicable requirements. All terms and conditions in this ROP are both federally enforceable and state enforceable unless otherwise footnoted. Certain terms and conditions are applicable to most stationary sources for which an ROP has been issued. These general conditions are included in Part A of this ROP. Other terms and conditions may apply to a specific emission unit, several emission units which are represented as a flexible group, or the entire stationary source which is represented as a source-wide group. Special conditions are identified in Parts B, C, D and/or the appendices.

In accordance with Rule 213(2)(a), all underlying applicable requirements will be identified for each ROP term or condition. All terms and conditions that are included in a PTI, are streamlined or subsumed, or is state only enforceable will be noted as such.

In accordance with Section 5507 of Act 451, the permittee has included in the ROP application a compliance certification, a schedule of compliance, and a compliance plan. For applicable requirements with which the source is in compliance, the source will continue to comply with these requirements. For applicable requirements with which the source is not in compliance, the source will comply with the detailed schedule of compliance requirements that are incorporated as an appendix in this ROP. Furthermore, for any applicable requirements effective after the date of issuance of this ROP, the stationary source will meet the requirements on a timely basis, unless the underlying applicable requirement requires a more detailed schedule of compliance.

Issuance of this permit does not obviate the necessity of obtaining such permits or approvals from other units of government as required by law.

A. GENERAL CONDITIONS

Permit Enforceability

- All conditions in this permit are both federally enforceable and state enforceable unless otherwise noted. **(R 336.1213(5))**
- Those conditions that are hereby incorporated in a state only enforceable Source-wide PTI pursuant to Rule 201(2)(d) are designated by footnote one. **(R 336.1213(5)(a), R336.1214a(5))**
- Those conditions that are hereby incorporated in federally enforceable Source- wide PTI No. MI-PTI-B2979-2007 pursuant to Rule 201(2)(c) are designated by footnote two. **(R 336.1213(5)(b), R 336.1214a(3))**

General Provisions

1. The permittee shall comply with all conditions of this ROP. Any ROP noncompliance constitutes a violation of Act 451, and is grounds for enforcement action, for ROP revocation or revision, or for denial of the renewal of the ROP. All terms and conditions of this ROP that are designated as federally enforceable are enforceable by the Administrator of the United States Environmental Protection Agency (USEPA) and by citizens under the provisions of the federal Clean Air Act (CAA). The filing of a request by the permittee for a permit modification, revision, or termination, or a notification of planned changes or anticipated noncompliance does not stay any ROP term or condition. This does not supersede or affect the ability of the permittee to make changes, at the permittee's own risk, pursuant to Rule 215 and Rule 216. **(R 336.1213(1)(c))**
4. The permittee shall allow the department, or an authorized representative of the department, upon presentation of credentials and other documents as may be required by law and upon stating the authority for and purpose of the investigation, to perform any of the following activities **(R 336.1213(1)(d))**:

5. The permittee shall furnish to the department, within a reasonable time, any information the department may request, in writing, to determine whether cause exists for modifying, revising, or revoking the ROP or to determine compliance with this ROP. Upon request, the permittee shall also furnish to the department copies

Appendix 7. Emission Calculations**EUSPRAYLINE-3**

The permittee shall use the following calculations in conjunction with monitoring, testing or recordkeeping data to determine compliance with the applicable requirements referenced in EUSPRAYLINE-3.

Formulation Data for each 4-week period

A = Batch No., Type, and Weight (lbs)

B = Component Name and lbs in batch

C = Component Density in lbs/gallon

VOID

ROP No: MI-ROP-[REF bSRN

*CHARFORMAT]-2007

Expiration Date: July 30, 2012
PTI No.: MI-PTI-[REF bSRN

*CHARFORMAT]-2007

 $D = B/A$ (Component Weight Percentage in Batch) $E = C \times D$ (Weighted Density in lbs/gallon) $F = \text{Component VOC (\%w)}$ $G = D \times F$ (Weighted VOC (\%w)) $H = \text{Component Water (\%w)}$ $J = A / \Sigma E = \text{Gallons Made with Water Still Included}$ $K = (A \times \Sigma H) / 8.34 = \text{Gallons of Water in Batch}$ $L = K / J = \text{Percent Water by Volume}$ $M = (A \times \Sigma G) / (J - K) = \text{Pounds of VOC per Gallon of Mix Without Water}$ Determination of Actual VOC Emission Rate for Each 4-Week Period $A = \text{Gallons of coating used per day, before reducing}$ $B = A - (A \times L) = \text{Gallons of coating minus water used}$ $C = M \times B = \text{Pounds of VOC used that date}$ $\text{Total tons VOC per 4-week period} = \Sigma C / 2000$

NOTE: The same formulas for L and M are used for both Formulation data and VOC emissions calculations
A formula for the letter "I" was not included in the original permit

FGLEATH-NESHAP

The permittee shall use the following calculations in conjunction with monitoring, testing or recordkeeping data to determine compliance with the applicable requirements referenced in FGLEATH-NESHAP

 $\text{Actual HAP Loss in pounds} = \Sigma(\text{lbs of each finish used} \times \text{mass fraction of HAP for the finish})$ $\text{Allowable HAP Loss in pounds} = \Sigma(\text{Annual total of leather processed} \times \text{HAP emission limit})$ $\text{Compliance Ratio} = \text{Actual HAP Loss} / \text{Allowable HAP Loss}$ **Appendix 8. Reporting****A. Annual, Semiannual, and Deviation Certification Reporting**

The permittee shall use the MDEQ Report Certification form (EQP 5736) and MDEQ Deviation Report form (EQP 5737) for the annual, semiannual and deviation certification reporting referenced in the Reporting Section of the Source-Wide, Emission Unit and/or Flexible Group Special Conditions. Alternative formats must meet the provisions of Rule 213(4)(c) and Rule 213(3)(c)(i), respectively, and be approved by the AQD District Supervisor.

B. Other Reporting

Specific reporting requirement formats and procedures are detailed in Part A or the appropriate Source-Wide, Emission Unit and/or Flexible Group Special Conditions. Therefore, Part B of this appendix is not applicable.

Appendix 9. Preventative Maintenance Plan

The facility shall maintain and implement a preventative maintenance plan for EUSPRAYLINE-1 and EUSPRAYLINE-3. This plan shall contain, at a minimum, the following information. Any changes to the plan shall be submitted to the District Supervisor.

1. Check coating lines daily and record actions taken for:
 - a) Any problems with the equipment while running.
 - b) Properly placed and operating filters.
 - c) Filters are replaced as needed.
 - d) Spray guns for proper flow.
2. Conduct repairs as needed.

The facility shall maintain and implement a preventative maintenance plan for EUSAND&PLUSH. This plan shall contain, at a minimum, the following information. Any changes to the plan shall be submitted to the District Supervisor.

1. Daily uncertified visual observations shall be made.
2. If visual emissions are observed, log the date and time emissions were observed and actions taken in response to the emissions.

Appendix 10. Site Specific Plan for Demonstrating Compliance

The facility shall maintain and implement a written site specific plan for demonstrating compliance for FGLEATH-NESHAP. This plan shall contain, at a minimum, the following information. **(40 CFR 63.5325(a)(1) through (7))**

1. Name and address of the owner or operator.
2. Physical address of the leather finishing plant
3. Detailed description of all methods of measurement to be used to determine finish usage, HAP content of each finish, quantity of leather processed, and leather product process operation type.
